Team Projects

1) Team projects compete and are judged in the scientific category of their research at the Intel ISEF.

2) Teams may have two or three members. Teams may not have had more than three members at any level of affiliated fair. Teams may not substitute members in a given research year.

3) Team membership cannot be changed during a given research year, including converting from an individual project to a team project, or vice versa. In future years, the project may be converted from an individual to a team project, from a team to an individual project and/or change team members.

4) Each team is encouraged to appoint a team leader to coordinate the work and act as spokesperson. It is recommended that each member of the team be able to serve as spokesperson, be fully involved with the project, and be familiar with all aspects of the project. The final work should reflect the coordinated efforts of all team members and will be evaluated using similar rules and judging criteria as individual projects.

5) Each team member must submit an Approval Form (1B). Team members must jointly submit the Checklist for Adult Sponsor (1), one abstract, a Student Checklist (1A), a Research Plan and other required forms.

6) Full names of all team members must appear on the abstract and forms.
